imagine
the possibilities

your style

No matter your style, you've come to the right place. Your Mendota gas fireplace can be designed to your exacting standards by completely customizing it to fit perfectly with your imagination. Set the mood of the room by enhancing what's already there or what you may add to accentuate your fireplace. Paint colors to complement the metal finish of the front. Artwork or design elements that work together with your choice of logs. It's not just a fireplace. It's a showcase of your style.

your *shape*

You have a vision; an empty canvas waiting to be transformed. Now you have the choices to bring it to life. Start with the shape. Something more traditional and time-honored, or the historic look of an arch? Maybe a more linear, contemporary look. Whatever your style, Mendota gives you the choices to create your own beautiful fireplace. It's where your vision begins, but certainly doesn't end.
